

## 2014, GE Healthcare 'Supplier of the Year'

In April of 2014, out their network of 5,000 strategic suppliers, GE Healthcare selected us as 'Supplier of the Year'.

We received this acknowledgment as a result of the quality of our products, our record of over 99% on time delivery, new product innovation, our ability to manage complex production and assembly order accurately, and the cost reductions achieved.

We have worked with GE since 1994 and received numerous nominations and awards.
